

Functional Course

PeopleSoft v9.2 Inventory Management

Financials Supply Chain Management (FSCM)

Developed for Storeroom Attendants, Store Keepers, Material Handlers, Storeroom Supervisors and Operations Analysts, PeopleSoft Inventory Management v9.2 training quickly introduces students to performing all inventory related transactions, including the receipt of material as well as the disposition stock and best practices for inventory counts and inventory inquiries. Through scenarios, real-world experiences from implementers, and hands-on activities, students gain an understanding of how to establish process and report on transactions.
