

PEOPLESOFT TEST FRAMEWORK

ACCELERATE TESTING. SPEED DEPLOYMENT.

SpearMC's PeopleSoft Test Framework (PTF) solution enables PeopleSoft Enterprise customers to automate much of the testing and evaluation associated with implementing Oracle updates. With SpearMC's on-demand and subscription plans, your organization can reduce the time and effort required to stay current, while improving the quality of your PeopleSoft Financials, Supply Chain and HCM systems.

CONSISTENT AND AUTOMATED.

THE PEOPLESOFT TEST FRAMEWORK ALLOWS YOU TO:

- Replace manual testing with PTF automation for Unit, Systemic, Integration and Regression testing
- Reduce effort/cost of PUM and regular enhancement project regression testing
- Save time for functional SMEs by replacing routine, manual testing with PTF scripts
- Save time for technical developers by replacing routine, manual unit testing with PTF scripts to help deliver higher quality code to SIT
- Test consistently across environments
- Easily migrate PTF test cases across environments
- Easily upgrade and maintain the test cases

SpearMC experts can guide you through PTF implementation.
