

FEATURED CLIENT

Savings, Security and Scalability on the Cloud

BECU, originally established to serve Boeing employees, is the 4th largest credit union in the United States. BECU asked SpearMC to move their PeopleSoft FSCM environment to the cloud. They needed expert help making the transition to cloud infrastructure smooth and cost-effective.

With SpearMC's assistance, BECU completed a simultaneous 9.2 upgrade and lift-and-shift of their current FSCM environment to Microsoft Azure Cloud, increasing their return on PeopleSoft investment, eliminating over 50% of customizations, and reducing total cost of ownership.

A SMOOTH TRANSITION

“There have not been many things that appear different than when we were on-prem, performance or usage-wise.

It was close to a non-event. It feels like nothing changed except the URLs.”

💡 RESULTS ACHIEVED

- Migrated PeopleSoft environment from local servers to a modern, secure infrastructure with hyper-threaded virtual machines that are optimized for Oracle software
- Increased IT resource efficiency
- Increased ability to scale IT resources up and down quickly
- Reduced costs of supporting internal hardware
- Eliminated wasted licenses
- Saved money, with no upfront commitment
