

CONSULTING TECHNOLOGY TRAINING

“ The standards in the healthcare industry can be very rigid and complex. The consultants from SpearMC always had the right approach in getting things done on time and on budget. Cannot say enough how instrumental each has been in providing the necessary project management support over the years. ”

—Hospira, a Pfizer company

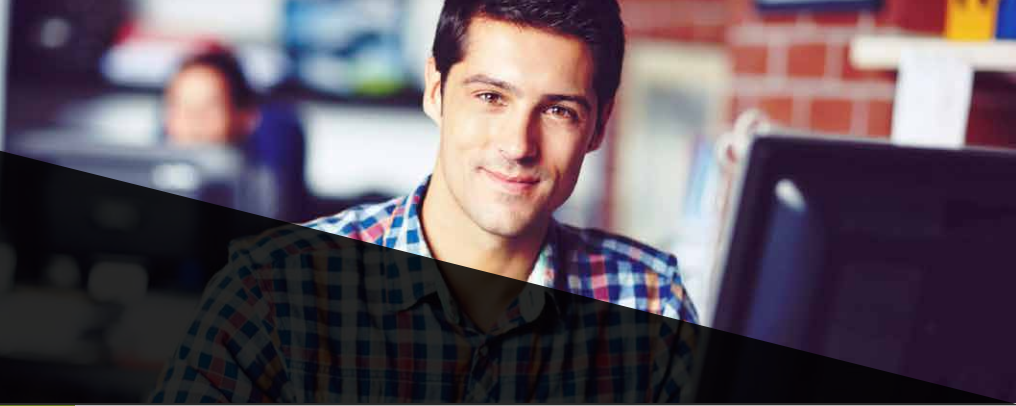

Your enterprise level business & technology experts

Improving business in the Emerald City

Our locally-based Seattle team is ready and waiting to work with you on your project. We've got consulting specialists, business analysts, technical leads and project managers with a successful track record of creating custom-tailored solutions for local businesses.

Working with our Seattle team means that you'll be partnering with someone you can see in-person and who understands our local economy. Our team of experts can supplement, complement, enhance or expand your portfolio of skills and experience quickly and effectively.
