Objectives

- PeopleTools Portal Technology
- PeopleSoft Fluid User Interface
- Mobile Application Platform
- PeopleCode
- PeopleSoft Application Designer
- PeopleSoft Search Technology
- Platform Support Enhancements
- System Administration Tools Enhancements
- Reporting and Analytic Tools Enhancements

PeopleTools Portal Technology

PeopleTools Portal Technology

- **Classic Plus**
- Contextual Fluid Dashboards
- Guest User Access (hide the logout link)
- The Wizard (Image type tiles)
- **Unified Navigation**
- **Web Profile Configuration (new options)**

PeopleTools Portal Technology

- Event Mapping
 - The PeopleCode event mapping feature first delivered in PeopleTools 8.55 has proven valuable in keeping customizations separate from the delivered source. This feature allows developers to associate custom application class PeopleCode with components so that the custom PeopleCode executes before or after any delivered PeopleCode
- New Page Activate and FieldChange events
- Miscellaneous Enhancements
- Page and Field Configurator

PeopleSoft Fluid User Interface

PeopleSoft Fluid User Interface

- Personalize Fluid Homepages on the Small Form Factor (mobile)
- Label Changes on Property Dialog Boxes
- Actions List Button (Formally known as “hamburger”)
- Form Factor Trace Option (now hidden)

Mobile Application Platform

Mobile Application Platform

- Custom Layout
- Exception Layout
- Sub Page/Containers
- PeopleTools Delivered Layouts

PeopleCode and PeopleSoft Application Designer

PeopleCode & PeopleSoft Application Designer

- PeopleCode
 - PeopleCode API Reference
 - Extended the Notification framework capabilities
- PeopleSoft Application Designer
 - Classic Plus Component Setting
 - Input Only Fields (Masking Sensitive Field Values)
 - Paragraph Page Control Property

ElasticSearch

ElasticSearch

- Chunking Support
 - Perform indexes on data based on date range
 - Parallel Processing for indexing
- Clusters in ElasticSearch for redundancy
- Monitoring Elasticsearch Using PeopleSoft Health Center

Platform Support Enhancements

Platform Support Enhancements

- See Oracle's PeopleSoft PeopleTools new Features Overview and Platform Certifications

System Administration Tools Enhancements
