

PEOPLESOFT MANAGED SERVICES AND SUPPORT POWERED BY JIRA

Custom-Tailored and Flexible PeopleSoft Support Solutions

Managing PeopleSoft consumes valuable time and focus. With SpearMC's Managed Services, you can free up critical resources while feeling confident in your PeopleSoft systems.

SpearMC handles both functional and technical PeopleSoft support, including administration, regulatory updates, annual process support, integration support, and PeopleSoft Update Manager installs. We work with you to customize a package based on your company's unique needs. Then, our PeopleSoft experts deliver proactive maintenance with industry-leading service level agreements, as well as prompt support from specialists with domain expertise. All service requests are managed through Jira Service Desk, an easy-to-use, world-class ticketing platform.

MANAGED SERVICES INCLUDE
